

JJ INTERNATIONAL, INC.

F8102U Sectional Furniture Clip

Step 1: Clips install as easy as a snap! Measure your 2 wicker or polyresin wicker panels that you want to secure together to ensure they are between 1.25 inches and 1.75 inches.

Step 2: Attach the open end of the clip to the bottom of both panels you are locking together and press down until the clip fully seats and they will snap in position. It will lock both panels together to prevent each individual section from sliding.

If you have difficulty assembling this product, please do not return the item. Please call (770) 420-0862 or email us at sales@jjinternationalinc.com for additional assistance.
